Transparency that's good for everyone.

# THE WAY IT SHOULD BE. THE WAY YOU ALWAYS THOUGHT IT WAS.

Bext360's vision is to impact lives and disrupt global supply chains by utilizing blockchain technology, artificial intelligence and machine vision to access traceability, transparency and sustainability like never before.

What We Offer

MORE THAN A CERTIFICATION. PROOF.

Bext360 provides comprehensive and measurable accountability for critical supply chains. The SaaS platform provides unsurpassed blockchain traceability and quantifiable measurements for sustainability.

bext

Software as a Service

Configurable solutions for every stakeholder in the supply chain at each step—from origin to consumer. APIs enable Bext360 technology to embed in websites, supply chain management systems, point-of-sale systems and more.

Traceable & Authentic

Data is collected at every stage of the supply chain and blockchained for an immutable record while quantifying sustainability measurements.

Quality Elevated

A unique combination of artificial intelligence and machine vision provides crop analysis, sorting and immediate feedback for producers at origin.

Tokenized Assets

Increasing in value as they move through the supply chain, digital tokens are used for digital payments, smart contracts, financing and more.

bext 360

Value Breakdown

TOKENIZED ASSETS FOR EVERY SUPPLY CHAIN

Instantly tokenize assets by assigning value through weight and quality. The blockchain records this data on a distributed ledger for immutable data tracking throughout the entire supply chain.

GRADE.WEIGH.PAY.

GRADE

Analyze the product and assign an industry standard quality.

WEIGH

Capture the weight of the product being sold through bluetooth IoT connection.

PAY

Instantly pay farmers based on quality and weight. Input data into traceability software.

bext 360

Integrate with processing equipment to easily track production.

Verify farmer with photo, thumbprint and signature identification methods.

Instantly tokenize assets and add to blockchain for full traceability.

Improve sustainability with wizard based data tracking.

Getting Data onto the Platform

DATA ENTRY & UPLOAD
Easy to use app
OCR

API
Integrate with existing systems

QR / NFC
Easy Scan
GPS Locater

MARKERS
Physical Marker
Biome Marker

IOT DEVICE
Bext 6401 Machine

CONSUMER END RETAIL
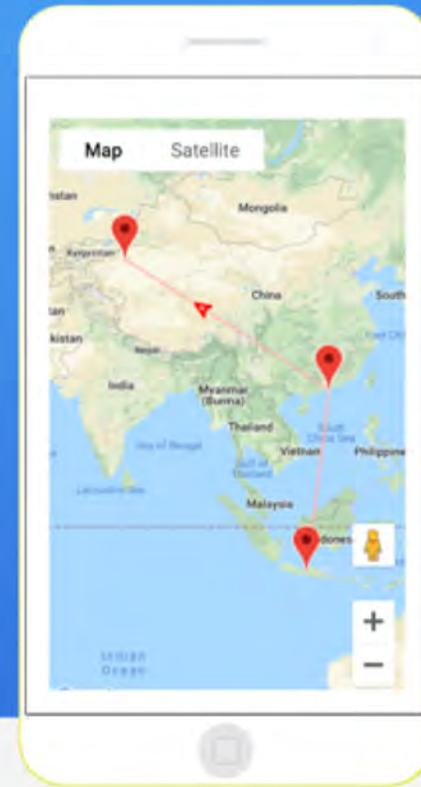

Storyboarding

Communicate product story through photos and videos

QR Scan

Scan smart tags to access product details

Sustainability

Track environmental footprint, sustainability certifications and other metrics

Web Interface

Interface with product sales and brand websites

Retail Integration

Integrate with existing retail methods

Data Tracking

Track supply chain data metrics from source to sale
